## ABOUT STATE PUBLIC HEALTH

State health agencies are working across the country to actively protect the public's health, prevent avoidable diseases and conditions, and promote healthy communities.

## FEDERAL FUNDS (FY15)

Source: ASTHO 2017 Profile

### IMPACT OF POTENTIAL CUTS TO FEDERAL FUNDING

Cut or eliminate public health programs that help individuals stay healthy and prevent disease leading to lost productivity due to illness and increased health care costs when they get sick

Delay disease outbreak response and investigation activities resulting in increased illness and death

Reduce or eliminate the capacity to analyze public health data. The loss of this capacity limits the ability to make informed decisions about disease prevention and health planning.

Reduced capacity to respond to public health emergencies putting more people at risk of harm due to natural disasters and health threats due to terrorism

Less funding to provide local health departments to implement programs, potentially increasing the disease burden on the state's most vulnerable

## FEDERAL FUNDING SOURCES (FY15)

Agency	Percent of agency budget	Revenue
CDC	28.3%	\$13,817,143.32
HRSA	6.7%	\$3,271,196.48
USDA	26.3%	\$12,840,666.76
All other	38.7%	\$18,894,821.44

## CDC 2018 OPIOID OVERDOSE CRISIS FUNDING

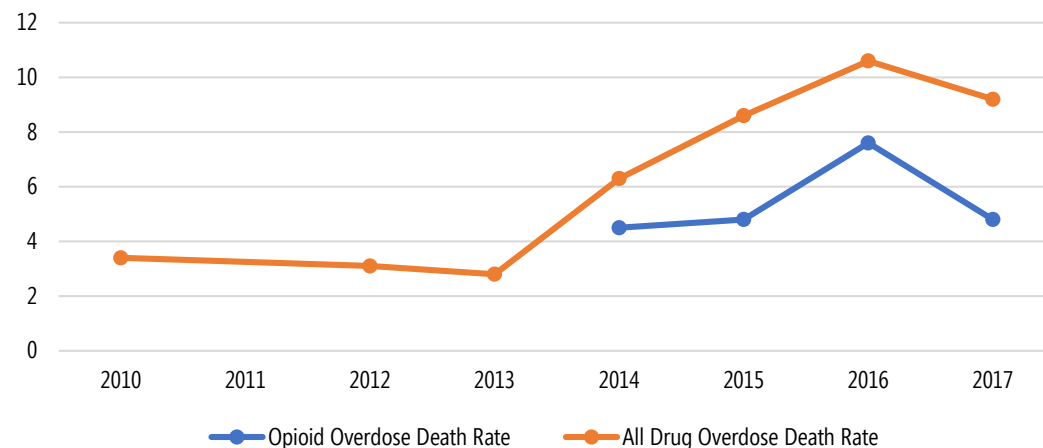

**Year 1 (FY18) \$1,867,784.00**

This funding will support North Dakota in working to prevent opioid-related overdoses, deaths, and other outcomes. It will advance the understanding of the epidemic and scale-up prevention and response activities, including improving the timeliness of data. Specifically:

- Improve timeliness and quality of syndromic surveillance data on fatal and non-fatal opioid overdoses
- Conduct opioid-related surveillance and coordinate with Enhanced State Opioid Overdose and Surveillance Program
- Enhance local data quality assurance for timeliness, completeness and validity

## OPIOID STATISTICS

ND: Overdose Death Rates per 100,000 Population (Age-Adjusted)

Source: Kaiser Family Foundation's State Health Facts

## UNITED HEALTH FOUNDATION RANK

**Strengths:**

- Low levels of air pollution
- Low drug death rate
- High immunization coverage among children

**Areas for Improvement:**

- High prevalence of excessive drinking
- High occupational fatality rate
- High prevalence of obesity
